Ramparts Magazine Office Burglarized

SAN FRANCISCO (AP)—The Ramparts magazine office was burglarized yesterday and ransacked of material including publisher Edward Keating's 10-year-old bank statements. Ramparts broke the story of Central Intelligence Agency financial backing of the National Students Association.

Keating said his personal file dealing with the Warren Commission report in the Kennedy assassination was taken from the San Francisco North Beach office. Herb Williamson, managing editor of Ramparts' Sunday newspaper, said art for future issues was scattered and ripped up.
